Career Objective:

Aspiring Java Developer with strong skills in full-stack development using Java, Spring Boot, and React. Seeking a challenging role to apply my technical knowledge and contribute to real-world software solutions.

Academics:

- Degree : B.Tech | Stream : CSE | CGPA : 7.9 | Duration : 2021-2025
-JNTUH College Of Engineering ,Rajanna Sircilla
- Intermediate : MPC | Percentage:97.2% |Duration : 2019-2021
-Prathibha Junior College ,Hanumakonda
- SSC : CGPA : 9.3 | Duration : 2018-2019
-Harsha High School, Mancherla District

Technical Summary:

Programming Languages: Proficient in Core Java with strong understanding of:

- Data Types, Variables, Operators
- Control Statements: if-else, switch, loops (for, while, do-while)
- Arrays and Strings: Manipulation, inbuilt methods, enhanced for-loop
- Object-Oriented Programming (OOP): Inheritance, Polymorphism, Encapsulation, Abstraction
- Exception Handling: try-catch, throw, throws, custom exceptions
- Collections Framework: List, Set, Map, Iterator, and their real-time use cases

Frontend Technologies:

- HTML5, CSS3 for responsive and accessible web layouts
- JavaScript (ES6+) for DOM manipulation, validation, interactivity
- React.js for component-based UI, props/state handling, routing

Backend Frameworks:

Familiar with Core Spring Framework concepts like:

Inversion of Control (IoC) , Dependency Injection (DI) , Basic understanding of Spring Bean lifecycle and XML/Annotation configuration, CRUD operations

Database:

Proficient in MySQL with knowledge of:

DDL,DML,DQL,TCL operations , Joins, Subqueries, Grouping , Functions (COUNT, SUM, AVG, etc.)

Other Skills:

Comfortable with tools like VS Code, Eclipse , Good at debugging and writing clean, readable code

Technical Skills:

Languages: Core Java

Web Technologies: HTML5, CSS3, JavaScript (ES6+), React.js

Frameworks: Spring Boot, Core Spring

Database: MySQL (DDL, DML, Joins, Functions)

Tools: Eclipse, Spring Tool Suite, VS Code, Postman, Git

Other: MVC Architecture, REST APIs, Debugging, Clean Code Writing

Projects:

College Management System

Tech Stack: React, Java, Spring Boot, MySQL

Tools: VS Code, Eclipse, Spring Tool Suite, Git, MySQL Workbench

- Developed a full-stack platform for students, faculty, and admin to manage academic data.
- Implemented secure login, profile handling, results viewing, and notice board.
- Used React for frontend, Spring Boot for backend REST APIs, and MySQL for database.
- Followed MVC architecture and integrated backend using JDBC

Restaurant Management System

- Technologies: HTML, CSS, Bootstrap, React, Spring Boot, MySQL
- Tools: VS Code, Spring Tool Suite, MySQL Workbench, Postman
- Implemented features like login/logout, menu categories (veg/non-veg), our specials, feedback, add to cart, and contact form.
- Designed and managed RESTful APIs using **Spring Boot**, connected to **MySQL** for database operations.
- Built the frontend using **React.js** with routing, state management (Context API), and Axios for API communication.
- Followed MVC architecture and tested backend using **Postman**
