

Workflow Documentation

Authentication & Subscription Process

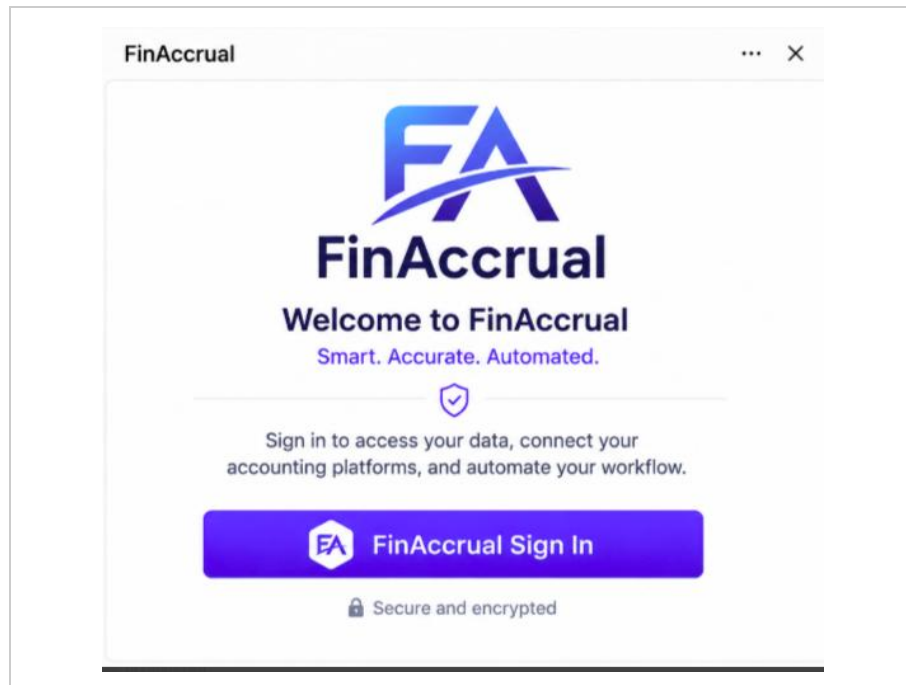

Prepared by Tanvox Technologies
August 11, 2026

Overview

This document outlines the end-to-end user journey through the Finaccrual platform, covering account sign-in, authentication, free trial activation, and subscription plan selection. It is intended as a reference for product, design, and engineering teams to understand the complete authentication and subscription workflow.

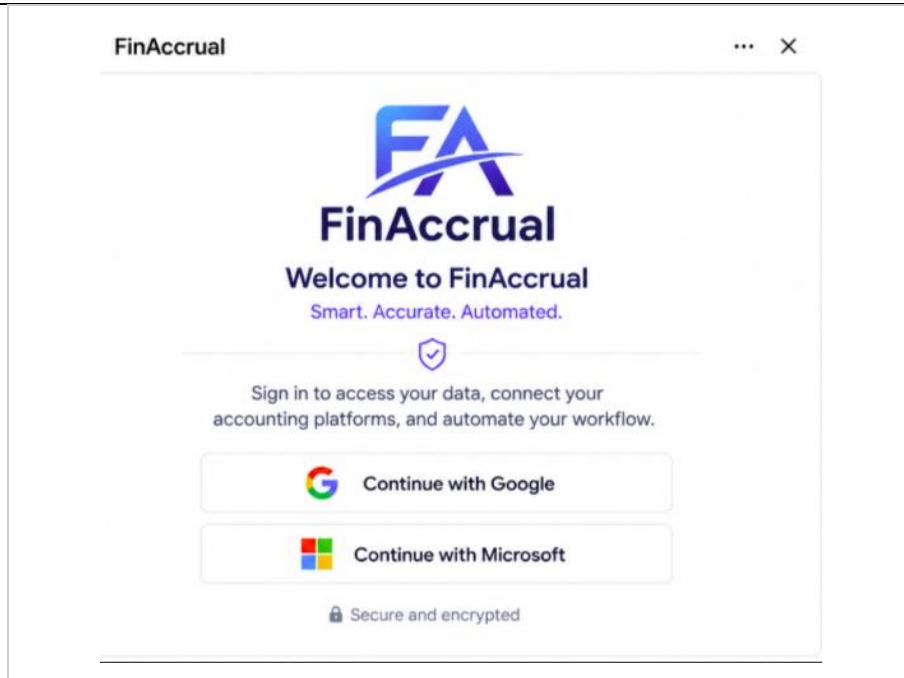

Step 1 — Welcome & Sign In

On the welcome page of Finaccrual, the user clicks Sign In. New users are redirected to the sign-up flow (Step 2), while existing users are redirected directly to the Finaccrual dashboard.

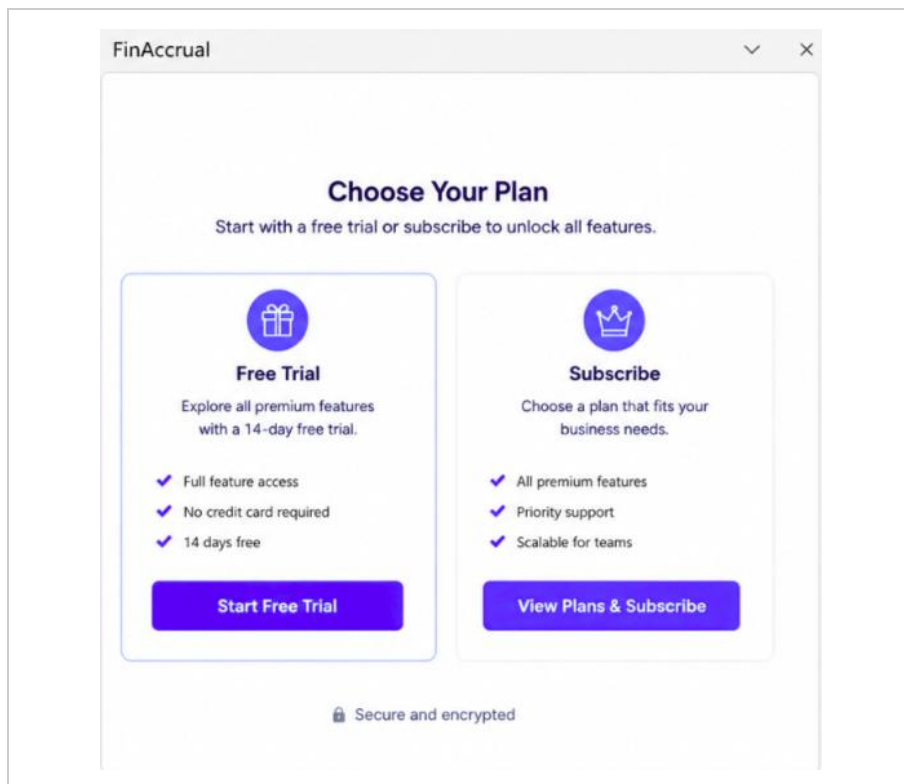

Step 2 — Account Creation

New users choose to continue with Google or continue with Microsoft to create their account.

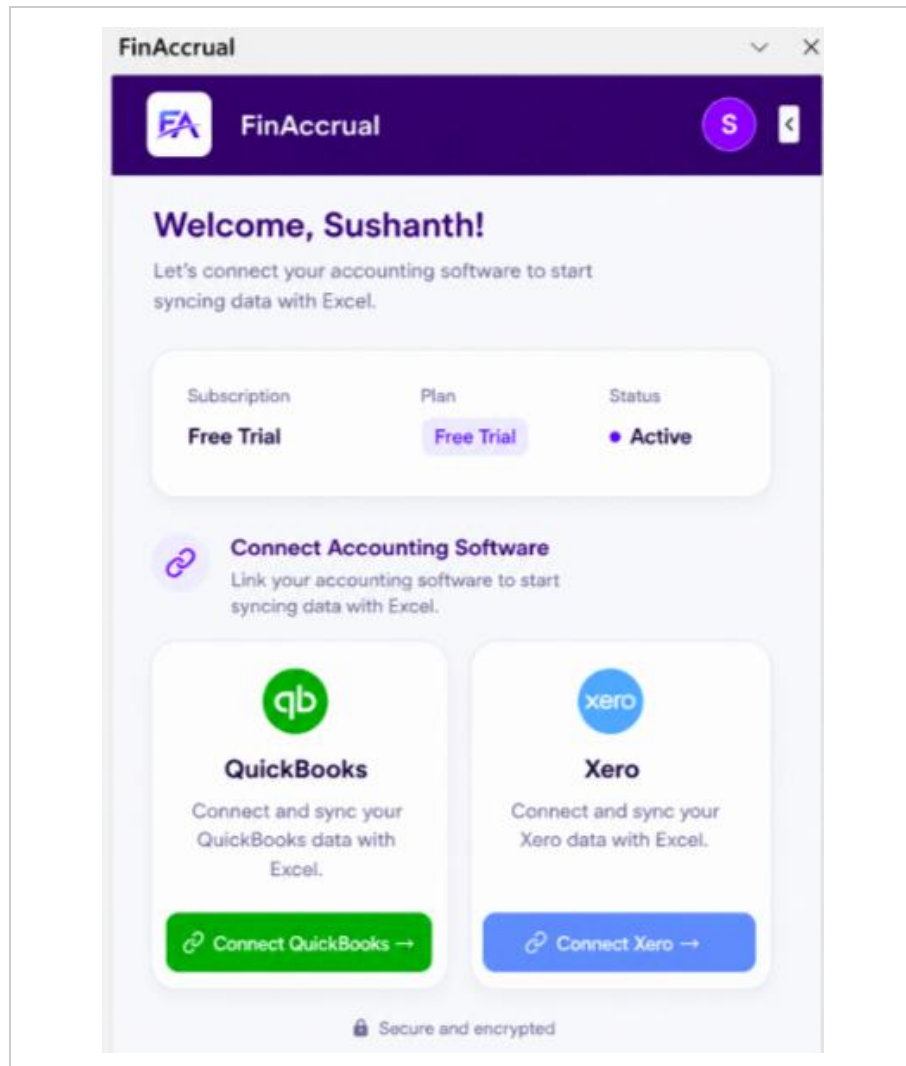

Step 3 — Plan Selection

After logging in, the user chooses between a Free Trial or Subscribe option.

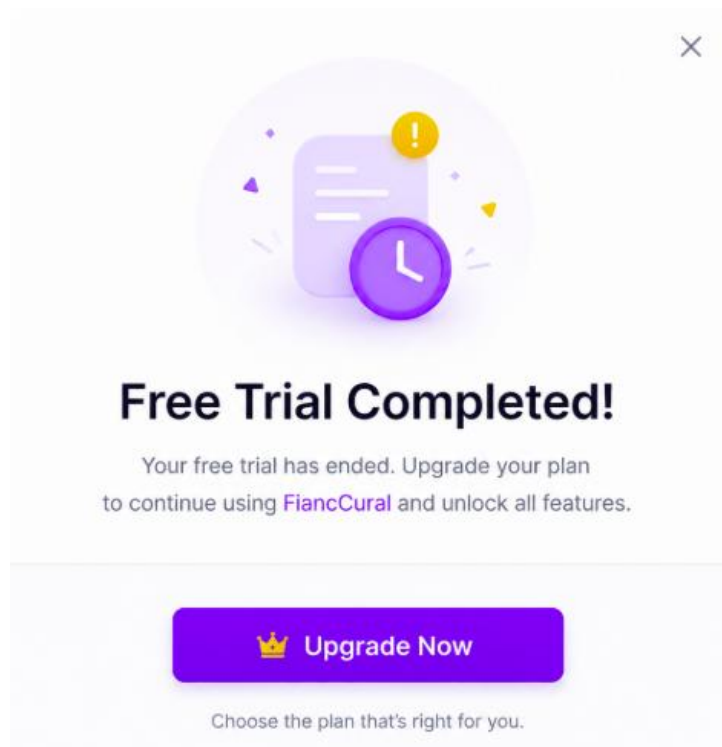

Step 4 — Free Trial Dashboard

On clicking Start Free Trial, the user is taken to the dashboard shown below.

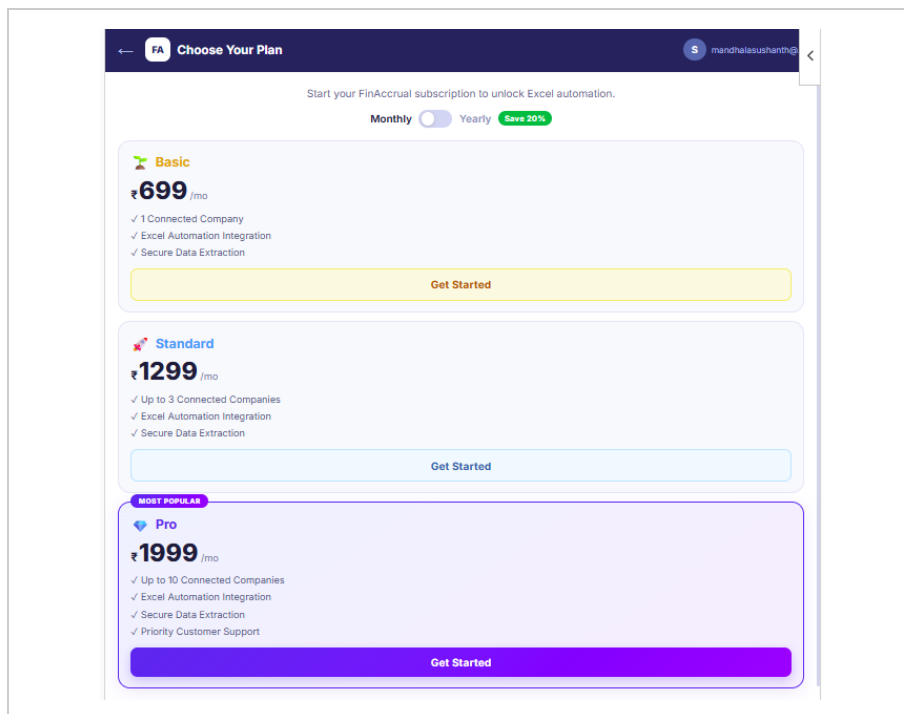

Step 5 — Trial Expiration

This screen is displayed once the free trial period has expired.

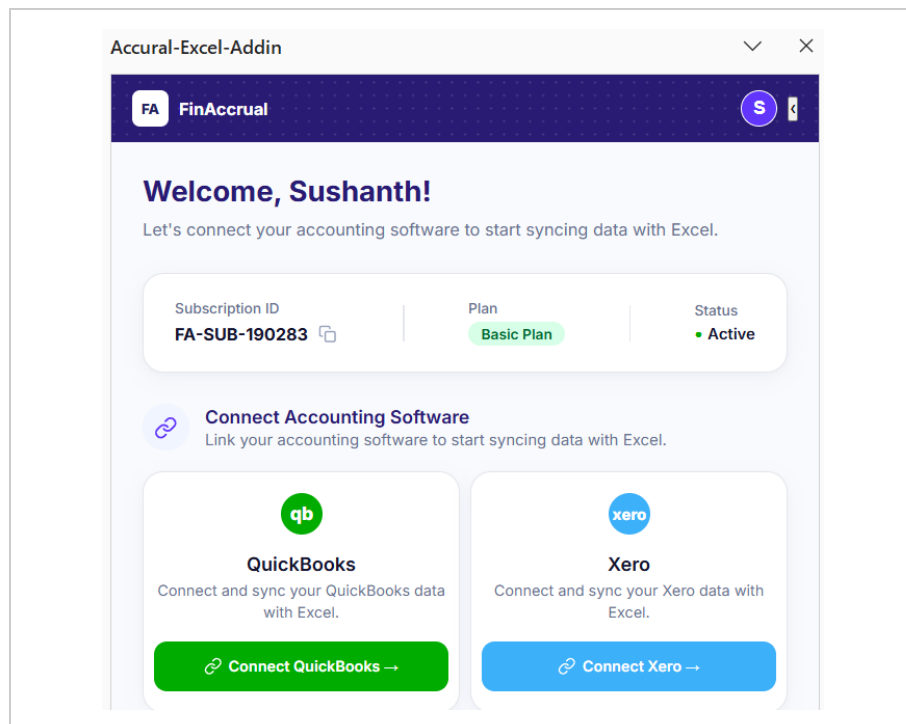

Step 6 — View Plans & Subscribe

If the user selects "View Plan and Subscribe" in Step 3, they are shown the available subscription plans.

Step 7 — Post-Subscription Dashboard

After completing the subscription purchase, the user is redirected to the Finaccrual dashboard.

Recommended Data Model

The following entities and fields are recommended to support the authentication and subscription workflow described above.

ABC User

user_id
display_name
created_at
status

Identity

identity_id
user_id
provider (Microsoft/Google)
provider_subject_id
email
email_verified

Customer / Organization

customer_id
organization_name
billing_contact
status

Customer Member

customer_id
user_id
role
seat_status

Subscription

subscription_id
customer_id
source
plan
status
seats
seats_used
start_date
renewal_date
cancellation_date

Entitlement

entitlement_id
customer_id
feature_code
enabled
limit
valid_until
